### **About 「Asia's 200 Best Under A Billion」**

**Forbes Asia's** Best Under A Billion list spotlights 200 top performing publicly listed companies in the Asia-Pacific region with sales under \$1 billion. From a universe of some 18,000 small and mid-sized companies in the region, these 200 Best Under A Billion companies have track records of exceptional corporate performance. Companies on the list were selected based on a composite score that incorporated their overall track record in measures such as debt, sales and earnings growth over both the most recent fiscal one- and three-year periods, and the strongest one- and five-year average returns on equity. The criteria also ensured a geographic diversity of companies from across the region. By using metrics both quantitative and qualitative, the final list of 200 is truly a select group.
